PROFILE

I am 24 years old, and recently completed a Bachelor of Science in Computer Science at Stephen F. Austin State University. I have been married to my wife Danica, and recently had our first child Emma in February of 2017. I am a hard-working, detailed programmer, excited and ready to use the skills learned throughout my degree in a professional environment.

I am disciplined and driven in the numerous skills I have developed and seek to gain more knowledge in other venues that are available to me as a software developer.

I look forward to meeting with you and learning how I might be a part of your organization.

PORTFOLIO

MyUI Website Builder

Why start from scratch with every new website build? MyUI allows a web developer to pick the sections they want, to build the template they need. The developer then can make the edits they need to fit their client's needs. Built with Laravel Framework and MySQL backend.
